

Forklift Spreader Bars

Forklift Spreader Bars - Proudly operating ever since nineteen seventy four, ELME Spreader AB is the largest independent spreader maker all over the world. They have been a devoted maker of spreaders meant for numerous applications like the swop bodies, trailers and handling of containers.

ELME currently employs more than 125 workers with all engineering is done in-house by way of utilizing all the newest CAD systems and FEM tools. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes across the world.

The ELME product collection offers spreaders intended for a variety of container and trailer handling operations. A few of their inventory include: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes and a huge variety of additional parts.

Manufacturing and production of ELME products are developed in highly automated purpose built factory. In the year 2008, they created 1150 spreaders by way of using quality components in order to ensure reliability and top standards. Major features of ELME include design simplicity, market feedback and innovative modular spreader concept.
