

Quick Attach Work Platform

Quick Attach Work Platform - Useful forklift work platforms attach quickly and safely to the forklift by putting in forks into blade pockets and chaining platform to the lift truck. These enhancements are frequently utilized so as to efficiently and safely move maintenance employees. The tine or fork lock ought to be engaged in order to secure the platform to the tines properly. This particular accessory has a checker floor plate platform and a long strap with hook in order to securely attach the platform to the fork truck. These work platforms are made of welded steel and powder coated utilizing a blue finish. They have a lifting capacity of one thousand pounds.
